

Vineyard and tree plantation

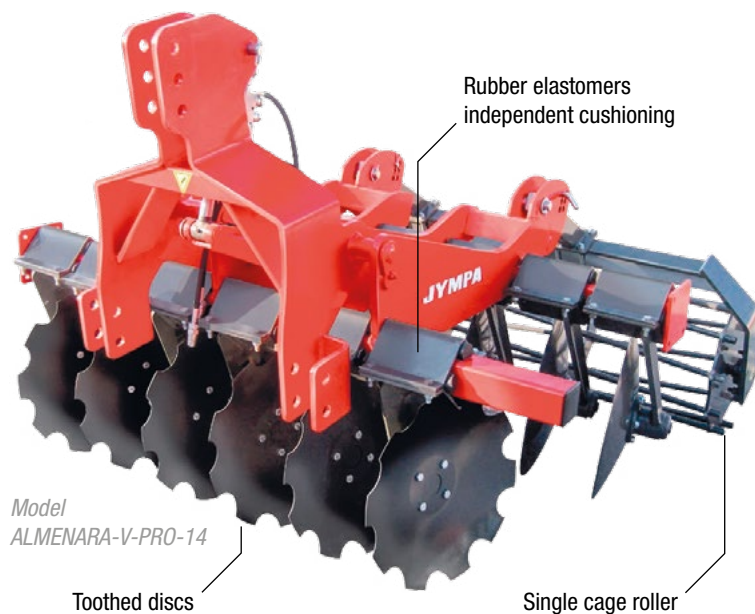

ALMENARA-V

Fast harrow

ALMENARA-V is a fast disc harrow with adapted size to work in vineyard or tree plantations, to turn over, eliminate and incorporate weeds into the soil, reducing the use of herbicides.

Its cushioning discs allow the machine to perfectly adapt to the irregularities of the terrain.

“High working speed”

*Optional:
turret with hydraulic vertical lift for
better turning at street ends and
narrow passages*
