

Model URANIA-2000

Central blade

Lateral blades

Other machines

URANIA

Polidozer

The **URANIA** polidozer leveller allows you to economically carry out agricultural, forestry or livestock work such as clearing and levelling roads and agricultural field boundaries, carrying out water channelling, snow removal, etc.

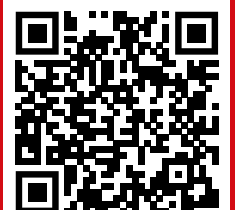

Hitched to the tractor's three-point linkage, the shovel allows a multitude of mechanical movements to adjust its position to all requirements, and can even work in reversible mode.

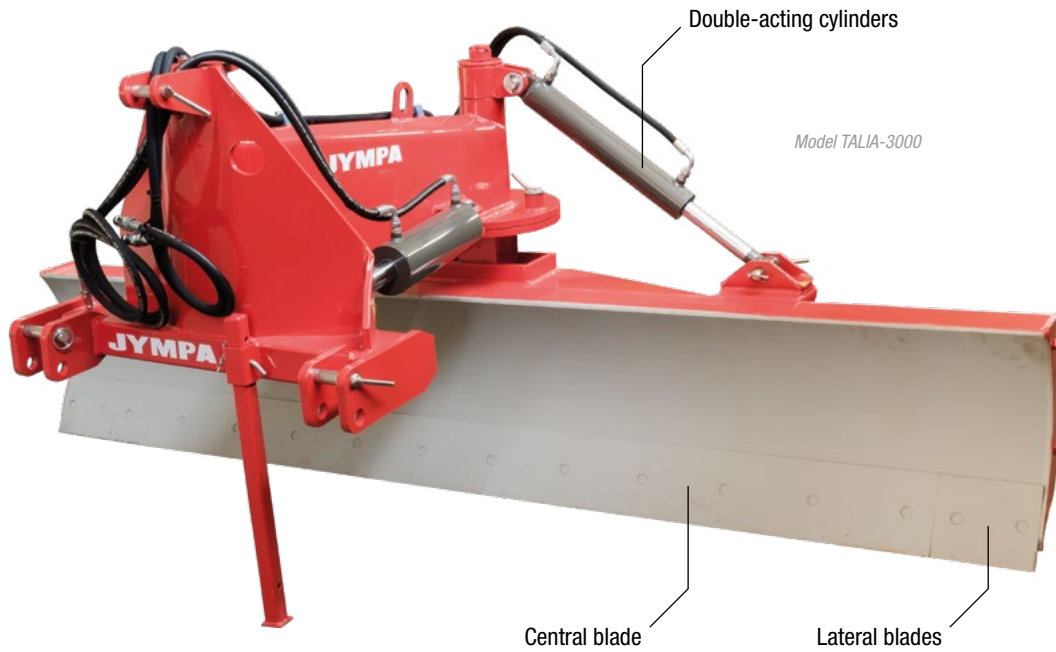

Reversible, replaceable and easy-to-install steel blades extend the service life of wear parts.

“Practical solutions”

Model	Required power HP	Working width m	Height m	Hitch category	Approx. weight kg
URANIA-1500	50-70	1,50	53	I - II	235
URANIA-2000	70-90	2,00	53	II	315
URANIA-2500	90-100	2,50	53	II	395

TALIA

Polidozer

The **TALIA** polidozer leveller allows you to carry out agricultural, forestry or livestock work quickly and practically, such as clearing and levelling roads and field boundaries, water channelling, snow removal, etc.

The hydraulic pistons allow the blade to adopt multiple positions quickly and comfortably, and to adjust its position to all needs, even being able to work in a reversible way.

Reversible, replaceable and easy-to-install steel blades extend the service life of wear parts.

Model	Required power HP	Working width m	Height m	Hitch category	Approx. weight kg
TALIA-2000	70-90	2,00	53	II	610
TALIA-2500	90-110	2,50	53	II	660
TALIA-3000	110-120	3,00	53	II	710

Other machines

“Fast and practical”
