ALMENARA PRO

Fast disc harrow

ALMENARA PRO is the top-of-the-range JYMPA fast disc harrows, with models of up to six metres working width, and designed to meet the needs of the most demanding farmers.

They feature a more robust and durable chassis, discs measuring Ø 560 or 610 mm, and 12 mm-thick steel disc arms cushioned by elastomers: quiet and maintenance-free.

It can be fitted with a cage, breaker or angle roller, with manual or hydraulic adjustment. Wheels and a tow bar can also be fitted for easier transport.

“For the most demanding”
