

**Vineyards and orchards**

# ALMENARA-V

*Fast harrow*

**ALMENARA-V** is a fast disc harrow designed for vineyards and orchards, to turn over, eliminate and incorporate weeds into the soil, reducing the use of herbicides.

Its cushioning discs allow the machine to perfectly adapt to the irregularities of the terrain.

**“High working speed”**

## Roller options

Ø 450 mm  
cage roller

Breaker roller

Model ALMENARA-V20  
with Ø 450 mm cage roller

### Optional elements:

- Lightning kit
- V20 reflective plates

| Model        | Required power<br>HP | Machine width<br>m | Working width<br>m | No. discs | Ø discs<br>mm | Approximate weight<br>kg |
|--------------|----------------------|--------------------|--------------------|-----------|---------------|--------------------------|
| ALMENARA-V16 | 50-75                | 1.85               | 2.00               | 16        | 510           | 740                      |
| ALMENARA-V18 | 60-80                | 2.10               | 2.25               | 18        | 510           | 840                      |
| ALMENARA-V20 | 65-90                | 2.35               | 2.50               | 20        | 510           | 900                      |
