

Stones

MYMERTIA

Stone picker for small stones

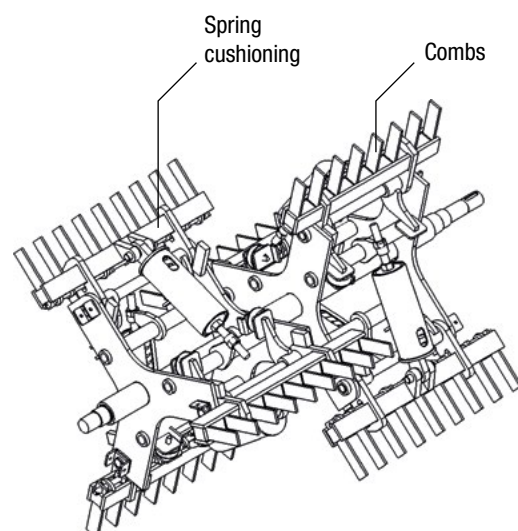

The **MYMERTIA** stone pickers are equipped with a continuous loading rotor driven by the tractor PTO, which picks up stones up to 20 cm in diameter from the ground surface and deposits them in the rear hopper.

Its almost automatic operation, spring-mounted rotor tines, floating shaft and easy-to-replace components make the machine simple and safe to operate, leave the ground clean of small stones.

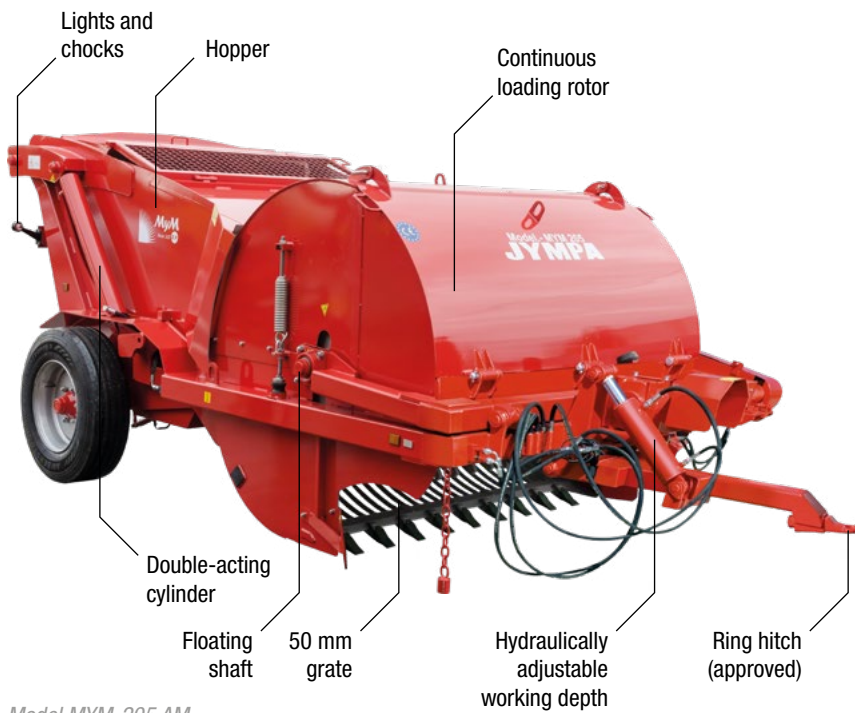

“Excellent results”

Model MYM-185

Rotor MYMERTIA

Model MYM-205 AM
